

Volunteer at Mokupāpapa: Discovery Center for Hawaii's Remote Coral Reefs

Our volunteers greet visitors, care for a marine aquarium, staff the exhibit area, and keep our displays in good working order. No previous experience necessary – we'll teach you everything you need to know.

If this interests you, please call the discovery center manager, Jeff Kuwabara 933-8195 to schedule an interview...or just stop by.

Next training class: April 2nd, 5:30 – 8:30PM in the Discovery Center's Program Room.
